x Data not available or not applicable.

<sup>1</sup> The Bureau of Labor Statistics' Consumer Price Index (CPI-U-RS) is 187.1 for 1989 and 244.1 for 1999. To adjust 1989 median, mean, and percapita dollar values to 1999 constant dollars, multiply 1989 dollar values by 244.1/187.1, or by 1.204650.

<sup>2</sup> Public assistance included Supplemental Security Income (SSI) recipients in 1990 census.

<sup>3</sup> 1999 data on median earnings are not directly comparable with 1989 data on median income. Based on Current Population Survey data for 1999, median income for full-time, year-round workers was higher than their median earnings by about 3 percent for males and 4 percent for females.
